TRANS-LIFT MOP, mobile order picker, TL 600 AC

TRANS-LIFT MOP = electrical vehicles to facilitate handling with maximum efficiency.
MOP's can be used for various purposes in production, warehouses and for order picking.
Designed for fast and efficient order picking or for moving supplies in e.g. hospitals or airports.

Standard models or "custom made" to suit requirements.

Examples of optional accessories: extra platform or lifting platform, roller-tables, shelves for handling of mail or parcels, driver seat, tow bar system, complete set of lights, tall ladder and support, battery cassettes for quick replacement of batteries (for work 24 hours a day), differential which drives and brakes on both rear wheels or double engine/gearbox and brake (for transportation in difficult conditions).

Technical specifications:
Chassis: 80x40x4 RHS steel.
All plate work in 2 mm sheet metal.
Side protection and non-skid, shock absorbing rubber mat on the standing platform.
Wheels: 6PR, diameter 300 mm gas rubber wheels.
Transmission: maintenance-free speed reducing gearbox.
Differential drives and brakes on both rear wheels. Noiseless driving
Electrical system: transistor speed multi-adjustable.
Engine: 24 v 1,2Kw AC.
Brake: reversible engine brake, magnetic security brake on engine.
Battery: 24 volt, 110A. Monoblock truck battery or as desired.
Maximum speed: either 6, 12 or 18 km/h.
Ergonomic maneuvering handle.

Measures:
Platform measures: length: 1200 mm
width: 800 mm
Total length: 1900 mm or as desired.
Loading capacity: 600 kg
